Benoit Mirete - QA Lead / Manager

Date of birth: 02/02/1982 **Nationality:** French **Address:** 109 Traverse de La Gouffonne, Marseille 13009, France
Phone number: 0033658770475 **Email address:** ben@mirete.fr **Preferred location:** Full/Hybrid Remote

Seasoned Senior Quality Assurance Engineer, fluent in English and French. Demonstrated expertise in Test Automation, Quality Assurance Processes, Agile Methodologies, and CI/CD. Adept at manual testing and meticulous bug reporting. Passionate about continuous improvement and delivering high-quality products, with a strong interest in performance testing and cybersecurity. Seeking a dynamic opportunity as a Senior QA Engineer to leverage skills and drive excellence in testing practices.

Work Experience

04/2024 – 03/2025
Paris, Remote

Senior QA Engineer
Groover
• Spearheaded the creation and implementation of a comprehensive test automation framework from the ground up, which produced reusable test scripts and improved overall testing efficiency.
• Integrated the automation framework into CI/CD pipelines, facilitating seamless and continuous quality assurance checks that helped catch issues early in the development process.
• Devised testing strategies that assessed system responsiveness and enhanced overall performance, ensuring our applications met user expectations and reduced downtime.
• Formulated metrics-driven dashboards to monitor key performance indicators (KPIs) for tests and application performance, delivering actionable insights that guided optimization efforts and improved our software quality.

11/2022 – 03/2024
Paris, Remote

Senior QA Engineer
GitGuardian
• Streamlined manual testing processes by implementing efficient automated workflows using Terraform and Ansible, which significantly reduced testing time and improved reliability.
• Developed a comprehensive solution for client environment reproduction, ensuring accuracy and consistency, which greatly improved the reliability of testing outcomes.
• Collaborated with multiple teams to foster a culture of teamwork and innovation in quality assurance practices, which helped elevate overall quality standards and encourage best practices.

03/2021 – 11/2022
Paris, Remote
